

7. a

$$o = 15 + 29 + 21 + 25$$

$$o = 90 \text{ e}$$

$$p_1 = 15 \cdot 20 : 2$$

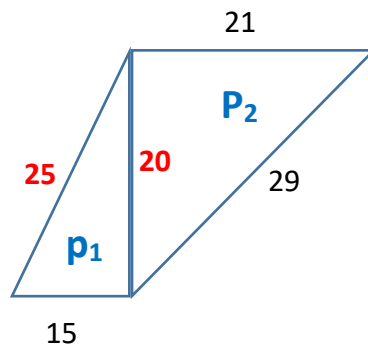

$$p_1 = \underline{150}$$

$$p_2 = 21 \cdot 20 : 2$$

$$p_2 = \underline{210}$$

$$p = p_1 + p_2 = 150 + 210 = 360 \text{ e}^2$$

---

13. Špela teče po hipotenuzi  $h = 109 \text{ m}$

Rok preteče dolžino in širino  $91 + 60 = 151 \text{ m}$

Razlika obeh poti je  $42 \text{ m}$ .
